ONLINE TUTOR FINDER

ABSTRACT

The "Online Tutor finder" has been developed to override the problems prevailing in the practicing manual system. This software is supported to eliminate and in some cases reduce the hard ships faced by this existing system. Moreover ,this system is designed for the particular need of Students to carry out their needs in a smooth and effective manner.

No formal knowledge is needed for the user to use this system. Thus by this all it proves it is user-friendly. OnlineTutor finder,as described above ,can lead to free use, secure, reliable and fast management system. It can assist the student to find the Tutor to their nearby location and to interact with them. Students can choose the Tutor on their needs from a group of tutors. Rather than finding tutor it also helps to chat with them in that way it will make the interaction more effective. Thus it will help organization in better utilization of resources.

It has a student's login page and Teacher's login page. In student's login page he/she can fill the form and create there profile. In Teacher's login page Teacher can fill the form and also show there qualifications in profile which could help Students and Partners to find a better Tutor. This platform also helps or gives a chance to get job who are interested.
